2. Discussed with General Cabell his call from Senator Ralph Yarborough (D., Tex.) concerning possible appearance of the DCI before Representative Olin E. Teague's Veterans' Committee on Soviet education. I indicated the nature of the material sent up by ORN and he was to call Senator Yarborough to discourage any appearance indicating we would make some material available to Teague of an unclassified nature and offer to assist in any way possible. General Cabell will advise the result of his call to Yarborough.

3. Charles Mackins of HRC telephoned indicating that Senator Jackson in response to press inquiry about release of the Dulles testimony stated this was being worked on. Mackins wanted to know if we were attempting to censor for publication. I advised that we were not and that Jackson was aware of this and is posing no problem on it and this is simply his way of not making an issue of it with the press.
